## Conference Sponsoring

### LANDSCAPE 2024

#### Agroecosystems in Transformation: Visions, Technologies and Actors

##### About the conference

From 17<sup>th</sup> to 19<sup>th</sup> September 2024 the Leibniz-Centre for Agricultural Landscape Research (ZALF) is organizing the international conference „LANDSCAPE 2024 – Agroecosystems in Transformation: Visions, Technologies and Actors“. We expect 250 leading international scientists and members of the world's most important research institutes involved in agricultural landscape research, as well as multipliers from politics and society.

LANDSCAPE 2024 (the 3rd triennial LANDSCAPE conference) brings together international experts to discuss the transformation of agricultural landscapes. The theme of the conference is "Agroecosystems in Transformation: Visions, Technologies, and Actors", highlighting the critical importance of having a clear vision, innovative technologies, and actors to drive sustainable change in agricultural landscapes.

The conference will focus on the future of agricultural landscapes and the role of technologies and actors in their transformation. In particular, discussions will focus on the synergies and trade-offs between different environmental objectives, such as preventing biodiversity loss, adapting to climate change, conserving soils and their functions, and reducing chemical inputs. The potential of emerging technologies and socio-technological innovations, including agricultural digitalization and biotechnological innovations, will also be explored in the context of agroecosystem transformation.

The conference will address the political, socio-economic and cultural aspects of transformation. This conference provides a unique opportunity for researchers to come together and share their knowledge and experiences in the field of agroecosystem transformation. The discussions and presentations at LANDSCAPE 2024 will help to lay the foundations for a more sustainable future for agriculture in the EU and globally, and provide insights for policy makers and practitioners to make informed decisions.

LANDSCAPE 2024 invites anyone interested in the future of agriculture and the role of technological innovation and actors in driving sustainable change. The conference provides a platform for international researchers to present their visions, innovative technologies and insights into agroecosystem transformation and to contribute to the advancement of knowledge in this field.

This conference is an excellent opportunity for your company to access highly sophisticated information on the state of the art in land use and landscape research and to meet renowned researchers in person.

## Sponsoring packages

The LANDSCAPE 2024 organizers are welcoming companies and other organizations to present themselves to a lively scientific community by participating as a sponsor.

We invite you to present your solutions and discuss your ideas with hundreds of world's leading scientists in the field of agricultural landscapes.

We would be very glad, if you decide to act as a sponsor of our conference. Please contact us for additional information or if you are interested to engage as sponsor. We can also discuss individual sponsorship option for you.

Please do not hesitate to contact us, we look forward to your participation!

Package	Silver 1500€	Gold 2500€	Platin 5000€
Sponsor is named on conference flyer, website and conference bag	x	x	x
Display of flyers in central locations	x	x	x
Logo is placed at the sponsors page	x	x	x
Full registration for company representatives	1	2	3
Color advert in book of abstracts	x	x	x
Exhibition space at the conference dinner			1x2m
Exhibition space at the conference		1x2m	2x2m
Sponsor is named in press releases			x

*Incl. 19% VAT*

## Event details

17 - 19 September 2024 | Pre-conference workshops: 16 Sept | Excursion: 20 Sept

Erwin-Schrödinger-Zentrum, Rudower Chaussee 26, 12489 Berlin, Germany
